

Aula 006

1) JavaScript

a)

The screenshot shows the OneCompiler interface with the JavaScript editor. The code in index.js is:

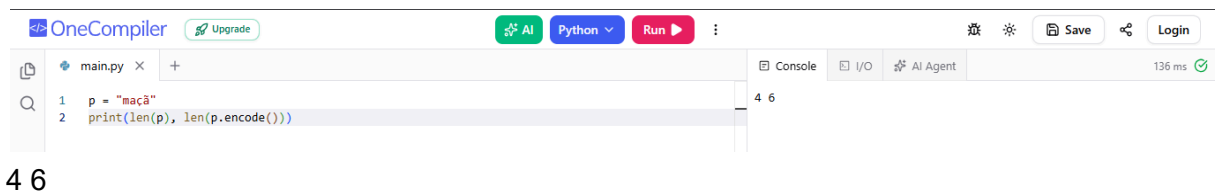

```
1 console.log(0.1 * 3 === 0.3);
2 console.log(9007199254740993);
3
```

The console output on the right shows:

```
false
9007199254740992
```

b) O problema é detectado na compilação.

2) a)

The screenshot shows the OneCompiler interface with the Python editor. The code in main.py is:

```
1 p = "maçã"
2 print(len(p), len(p.encode()))
```

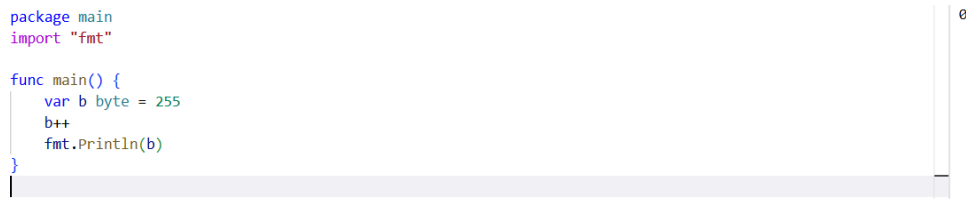

The console output on the right shows:

```
4 6
```

4 6

b) Nunca

3) a)

The screenshot shows the OneCompiler interface with the Go editor. The code in main.go is:

```
package main
import "fmt"

func main() {
    var b byte = 255
    b++
    fmt.Println(b)
}
```

The console output on the right shows:

```
0
```

b) Detectado: nunca

5) a)

The screenshot shows the OneCompiler IDE with a Rust file named `HelloWorld.rs`. The code is as follows:

```
1 fn main() {  
2     let s = String::from("oi");  
3     let t = s;  
4     println!("{}", s, t);  
5 }  
6
```

The console on the right displays the following error:

```
error[E0382]: borrow of moved value: `s`  
--> HelloWorld.rs:4:23  
|  
2 |     let s = String::from("oi");  
|     - move occurs because `s` has type `String`, which  
|     does not implement the `Copy` trait  
3 |     let t = s;  
|     - value moved here  
4 |     println!("{}", s, t);  
|                   ^ value borrowed here after move  
|  
help: consider cloning the value if the performance cost is  
|     acceptable  
|  
3 |     let t = s.clone();  
|               +++++++  
|  
error: aborting due to 1 previous error  
  
For more information about this error, try `rustc --explain E0382`.  
Debug this error
```

b) Compilação

4) Java

a)

The screenshot shows the OneCompiler IDE with a Java file named `Main.java`. The code is as follows:

```
1 int [] v = new int[3];  
2 System.out.println(v[0]);  
3 System.out.println(v[3]);
```

The console on the right displays the following errors:

```
Main.java:2: error: class, interface, annotation type, enum,  
record, method or field expected  
System.out.println(v[0]);  
^  
Main.java:3: error: class, interface, annotation type, enum,  
record, method or field expected  
System.out.println(v[3]);  
^  
2 errors  
Debug this error
```

b) O problema é encontrado na execução.

6)a)

The screenshot shows the OneCompiler IDE with a C file named `Main.c`. The code is as follows:

```
1 #include <stdio.h>  
2 int main()  
3 {  
4     union { int i; float f; } u;  
5     u.f = 1.0f;  
6     printf("%d\n", u.i);  
7 }
```

The console on the right shows the output `1065353216` and a status of `182 ms` with a green checkmark, indicating successful execution.

b) Detectado: nunca
